

INSC 2024

(Indian National Stroke Conference)

17th Annual conference of Indian Stroke Association **(ISA)**

Under the Aegis of Bangur Institute of
Neuroscience & Stroke Foundation **PRABAHO**

28th - 31th March 2024

JW Marriott

KOLKATA

Welcome To INSC 2024

It is our utmost pleasure to extend a warm greeting to all of you to the highly anticipated Indian National Stroke Conference 2024, at the prestigious JW Marriott Hotel in Kolkata.

We are honored to host this conference, which brings together renowned experts, researchers, doctors and healthcare professionals from across the country and abroad to share their insights, exchange ideas, and discuss the latest advancements in stroke research and treatment.

This conference aims to create a platform for interdisciplinary collaboration and knowledge sharing. We believe that by fostering such collaborations, we can collectively strive towards improving stroke prevention, diagnosis, treatment, and rehabilitation practices.

Throughout the conference, you can expect a comprehensive program that includes stimulating lectures, interactive workshops and insightful poster and platform presentations. We have carefully curated a diverse range of topics that cover various aspects of stroke, including prevention strategies, cutting-edge technology, and advancements in patient care.

Not only will this conference facilitate intellectual growth, but it will also provide ample opportunities for networking and forging new professional relationships. We encourage you all to connect with like-minded individuals and engage in fruitful discussions that can positively impact the world of stroke research and healthcare.

The JW Marriott Hotel in Kolkata is the perfect venue for this event. Its luxurious accommodations, state-of-the-art conference facilities and warm hospitality will create an atmosphere conducive to learning, collaboration, and relaxation.

Lastly, we would like to express our gratitude to all the esteemed speakers, sponsors, and attendees who have made this conference possible. Your presence and contributions are essential in making this event a resounding success.

Once again, a heartfelt welcome to the Indian National Stroke Conference 2024. We hope that you find this conference enriching, enlightening, and inspiring. Let us come together, share our knowledge, and continue the fight against stroke.

Thank you, join and enjoy the conference!

CONFERENCE OBJECTIVE

The Indian Stroke Association (ISA) is set to host its highly anticipated national conference in the captivating city of Kolkata in 2024. This landmark event holds tremendous importance in the realm of spreading stroke awareness, facilitating the exchange of ideas, providing valuable learning opportunities for neurologists, and highlighting critical advancements such as stroke thrombolysis, thrombectomy, primary and secondary stroke prevention, stroke therapy workshops, rehabilitation, and discussion on cutting-edge research.

One of the primary objectives of the Indian Stroke Association National Conference is to raise awareness about stroke prevention, recognition, and management strategies. Through sharing of invaluable knowledge and expertise, the conference serves as a platform to disseminate crucial information about recognizing stroke symptoms, methods of prevention, and when to seek medical help.

The conference offers a multitude of educational sessions and workshops targeted specifically towards neurologists. The conference includes interactive workshops that enhance practitioners' skills in stroke therapy and management, showcasing new techniques and technologies. These sessions provide a comprehensive overview of the latest advancements in stroke care, including the use of thrombolysis and thrombectomy. The conference aims to emphasize the importance of these interventions and their application in clinical practice. Neurologists are updated on the evidence-based guidelines for stroke management, allowing them to enhance their skills and stay up-to-date with the rapidly evolving field of stroke medicine.

Lectures by the eminent experts on primary prevention methods and on the role of anticoagulants and antiplatelet agents.

INSC 2024
JW Marriott Kolkata

Additionally, presentations on secondary prevention highlight optimal management approaches for individuals who have already experienced a stroke, focusing on preventing recurrent events and associated disabilities.

The Indian Stroke Association National Conference serves as a hub for the presentation and discussion of cutting-edge research in stroke medicine. Researchers and academicians have the opportunity to present their latest findings, innovative research methodologies, and breakthroughs in the field. This fosters collaboration and inspires the development of new research projects, laying the foundation for further advancements in stroke care.

The Indian Stroke Association National Conference 2024 in Kolkata is a significant event that plays a fundamental role in the spread of stroke awareness, knowledge exchange, and innovation in stroke care by uniting professionals from various disciplines. Through this collaborative effort, the conference aims to propel advancements in stroke care and improve the lives of stroke patients across India.

INSC 2024
JW Marriott Kolkata

HIGHLIGHTS

The conference presents a unique opportunity for Neurologists, Stroke Specialists, and Healthcare Practitioners from across the world to come together and exchange ideas and experiences.

The conference offers a multitude of educational sessions and workshops targeted specifically towards clinicians.

Showcasing new techniques and technologies aimed at improving the quality of care provided to stroke patients.

The conference aims to emphasize the importance of revolutionary interventions such as Stroke Thrombolysis and Thrombectomy and their widespread application in clinical practice.

INSC 2024
JW Marriott Kolkata

Focused discussion on Primary and Secondary Prevention of Stroke by giving healthcare professionals access to evidence based prevention strategies. The conference empowers them to make a tangible impact on reducing the stroke burden.

The conference includes interactive workshops that enhance practitioners' skills in stroke therapy and management, showcasing new techniques and technologies.

Researchers and academicians have the opportunity to present their latest findings, innovative research methodologies, and breakthroughs in the field.

TENTATIVE PROGRAM SCHEDULE

28th March – 31st March 2024

1 28th March

- Registration and Workshops :- Focused workshops by expert national and international faculties
 - Stroke imaging
 - Stroke Thrombolysis
 - Basic and Advanced Stroke modules on Mechanical Thrombectomy (with hands on flow models)
 - Stroke Rehabilitation (including Robotics and Botulinum Toxin)
 - Transcranial Magnetic Stimulation
 - Neurosonology

2 29th March

- Lectures
- Poster Presentations
- Platform Presentations
- Presidential Oration
- Inauguration
- Cultural Program

3 30th March

- Lectures
- Poster Presentations
- Stroke Quiz
- Platform Presentations
- Gala Dinner

INSC 2024
JW Marriott Kolkata

4**31st March**

- Poster Presentations
- Lectures
- Stroke Nursing Symposium
- Valedictory

We will highlight and discuss on all things related to stroke, extending beyond the ones mentioned

Acute Ischemic Stroke

- ◆ Indications, Extended window Indications and Complications of IV Thrombolysis
- ◆ Reducing the Door to Needle/ Puncture time
- ◆ Has Tenecteplase finally overshadowed big brother TPA?
- ◆ Biosimilar Tenecteplase vs Innovator Tenecteplase: is there really a difference?
- ◆ Newer pharmaco-adjunctive therapies with IV thrombolysis
- ◆ Imaging in Acute Ischemic Stroke; Minimalistic vs elaborate imaging: Where do we stand?
- ◆ Mechanical Thrombectomy : time to revise guidelines further
- ◆ Mechanical Thrombectomy in large core strokes
- ◆ MT in low NIHSS stroke
- ◆ MT in MeVOs
- ◆ MT : different techniques and do they matter
- ◆ Complications of MT and their management

Secondary Prevention

- ◆ Mechanism of Stroke (MoS) and how it impacts treatment?
- ◆ Stroke with Multiple Brain Infarcts and micro-bleeds
- ◆ Lipid lowering agents in Stroke

INSC 2024
JW Marriott Kolkata

- ◆ Sleep apnoea as risk factor for Ischemic Stroke
- ◆ Newer antiplatelet agents
- ◆ Role of Exercise in lowering stroke risk
- ◆ Applied Neurovascular Anatomy including the Neurovascular unit
- ◆ Circle of Willis and its importance
- ◆ Evaluation of suspected Cardioembolic Stroke

Hemorrhagic Stroke

- ◆ Hypertension in intracerebral hemorrhage: Management issues
- ◆ Surgery in Intracerebral Hemorrhage: When and how and to what effect?
- ◆ Role of EVD in Hemorrhagic strokes: With and without antiplatelets
- ◆ Hemispherectomy: What is the recent evidence base?
- ◆ Chronic SDH: Start of a new era of minimally invasive management?
- ◆ Brain AVM : when to suspect and treat?
- ◆ Multimodal therapy of Brain AVMs
- ◆ Medical management of Subarachnoid hemorrhage
- ◆ Endovascular management of Aneurysms : what's new
- ◆ Dural AV fistulas : presentation, evaluation and management

Others

- ◆ Extracranial dissection
- ◆ Intracranial Dissection
- ◆ CNS vasculitis
- ◆ RCVS

INSC 2024
JW Marriott Kolkata

- ◆ Moya Moya syndromes
- ◆ CADASIL
- ◆ Migraine and Stroke: myth or fact
- ◆ Advances in Rehabilitation of Stroke patient
- ◆ Speech and cognition after stroke
- ◆ Cerebral Venous Sinus Thrombosis: Management and Prevention
- ◆ Telestroke and its implications: Bridging the gap

Panel Discussion

- ◆ Vessel wall imaging adds value to diagnosis and treatment of stroke
- ◆ Surgical revascularization in ischemic and hemorrhagic stroke
- ◆ Applications of TCD in Ischemic and Hemorrhagic stroke
- ◆ Tandem Vessel Disease and its management
- ◆ Carotid revascularization in a cardiac patient
- ◆ Asymptomatic Carotid Stenosis
- ◆ Vertebral Ostial Disease: Significance and Management
- ◆ NOACs in ischemic stroke
- ◆ Management of Seizure in different Stroke Scenario

***Detailed program structure will be shared later**

Please Note-:

Each candidate can opt for only 2 workshops. To attend each workshop an additional fee of Rs 1000 per workshop will be charged. Maximum participation limit for all workshop category is 50 participants/workshop **except MT(Mechanical Thrombectomy)**. First come first served policy will be followed for each category **except for MT**.

For MT (Mechanical Thrombectomy) workshop, there are two divisions: Basic and Advanced. Maximum 25 participants will be allowed in each category. To attend the workshop on MT (Mechanical Thrombectomy) prospective candidates are requested to send a short biodata in the email id mentioned below.

Admission to attend this workshop (Basic or Advanced) will be the sole discretion of the selection committee. Candidates who are not selected for this workshop, will be accommodated in other workshops.

Email Id --- info@insckolkata2024.com. Subject Line --- " Biodata for Workshop on MT "
Workshop registration fee is nonrefundable.

JW Marriott Kolkata

Research Paper Submission

- ◆ Free papers/cases are welcome. There will be awards for best paper/case.
- ◆ Kindly send your abstracts in appropriate format to info@insckolkata2024.com clearly mentioning names of author/s, presenting author and name of the institution in bold.
- ◆ Selection of papers/cases will be at the sole discretion of the organizing committee.
- ◆ Papers (abstracts)/cases should reach us before 01.03.2024.

NOTE:

Only registered delegates are entitled to present the selected papers/cases. In e-mail correspondence, please mention Paper (abstracts)/Case in the subject line. Abstracts/cases will be reviewed and rated by the scientific committee prior to final decision on acceptance. A few abstracts/cases will be selected for presentations.

INTERNATIONAL FACULTY

Following eminent international faculties are expected to share their valuable experience at the conference

Dr. Tudor Jovin

Dr. Marc Ribo

Dr. Thanh Nguyen

Dr. Dileep R Yavagal
